Total project costs

The data for the cost of a project are provided by the sum of costs of investment (land, buildings, licenses, patents, etc) and operating costs (personnel, raw materials, supply of energy, etc)

The Application Forms for the Cohesion Fund and ISPA require the specification of the amounts of eligible costs and total costs

Eligible costs

The difference between the two cost items derives mainly from:

1. payment of VAT
2. expenses borne before the presentation
3. of the application
4. land purchase expenditure
5. related work or connected expenses

Link to co-financing rate

The co-financing rate is the percentage that defines how much of the eligible costs are covered by EU financing by grant
