2007 - 2013

6.1.1	Q1. By the end of the programming period, will the allocations for PA2 and PA3 be entirely used, in case no additional measures are adopted (e.g. new eligible costs/new activities/new eligible applicants/new target groups etc)?	81
6.1.2	Q2. To what extent and what way the reduced capacity of the beneficiary affects the planning and management of the projects founded by PA2 and PA3? Which are the tasks/responsibilities of the beneficiary that can be outsourced?	81
6.1.3	Q3. Are there changes on eligible costs / activities / applicants / target groups, etc. that can be introduced in order to ensure the increase in demand / absorption of funds from PA2 and PA3? If so, will they significantly change the probability of making full use of AP2 and AP3 financial allocations by the end of programming period?	82
6.1.4	Q4. What is the potential for spending the funds of PA1 in the coming years, for avoiding the automatic de-commitment of OPTA?	83
6.1.5	Q5. Are there are new eligible costs / activities / applicants / target groups, etc. that could be added to those already eligible in order to ensure the increase in absorption for PA1?	83
6.1.6	Q6. What are the options for reallocation of unused funds (within the OP or to other OPs), and which would be the effects on indicators targets and on general and specific objectives of the programme?	84
6.2	Recommendations	89
